## Sun Protection for Infants

Too much sun exposure in early childhood contributes to skin cancer. If your child is under 6 months old, keep him under a tree, an umbrella, or a stroller canopy, out of direct sunlight. You'll also want to use a sun-

screen with a high SPF value. Older babies and children (and adults) should also be sunscreensed regularly, after toweling or after being in the water for an extended period of time. Read the guidelines on your sunscreen bottle and keep

the whole family safe from skin cancer!

Do you want to add your kids on for the summer? Kids under 5 cost only \$30 for the summer, kids 5-13 are only \$55.00 and kids 14-18 are only \$60.00. That will keep them swimming, Adventure Zoning, Watersliding, active and having fun all summer long! Plus they will get the member discount on swim lessons and Camp Broadwater. Add your kids to your membership for the summer at the Front Desk at any of the Clubs.
